6. SSO Staff or the Executive Council may at any time obtain legal counsel at their discretion and approval through proper fiduciary processes.
7. Once resolution has been determined, the individual will be provided a summary of the investigation and decision by the governing body.

Disciplinary actions include, but are not limited to:

- Counseling and warning regarding zero tolerance of unacceptable behavior.
- Revocation of SSO event registration.
- Termination of contractual or business relationship.

The severity of the punitive action shall be commensurate with the degree of disruption and the response necessary to restore a safe and respectful environment for all parties involved.

Results of the investigation and its conclusion will be noted in member or commercial vendor's file.

Violators of the Code of Conduct will have ten (10) business days to appeal the decision to the governing body as deemed by the Code of Conduct Violation Resolution section.

## False Claims

If it is alleged that any complaint or portion of the violation report is false, the findings of the investigation will be reviewed to determine if there is proof that the allegations are false and if so, whether the accuser genuinely believed them to be true, or if they pursued a vexatious complaint.

If the evidence suggests the accuser did believe and understand the allegations to be true, this would not be grounds for disciplinary action against them. Where the evidence is clear that the allegations were deliberately made by the accuser and known by them to be untrue, then appropriate action under the Code of Conduct Violation Resolution section will be taken.

If, following the investigation, the complaint is deemed to have been false, then the accused individual may raise their own grievance which will be investigated.

## Conflict of Interest Policy

### Purpose

This policy exists to promote transparency within the Society of Surgical Oncology (SSO) and mitigate any actual or perceived Conflicts of Interest for members serving in positions of leadership within the organization. The intent of this policy is to supplement, not replace, any applicable federal, state, or local laws regarding conflicts of interest.

### Overview

Many individuals serve the SSO in a variety of capacities which may involve making, contributing to, or influencing significant organizational decisions. **A conflict of interest arises when personal interests interfere with, or reasonably could interfere with, an individual from performing their obligations in an unbiased manner.**

Conflicts of interest may arise when:

- The interests or activities of an individual or a member of their family are potentially competitive with or adverse to those of the SSO; or
- An individual is in a position to influence a transaction or decision in such a way that it will or might appear to benefit the individual or their family member.

### Applicability

This policy applies to members of an SSO Committee, Subcommittee, Editorial and Advisory Board, Work Group, or Task Force (collectively, “committee members”), the Board of Directors, or as a representative of the organization (collectively “volunteer leaders”).

### Policy

Volunteer leadership must disclose any potential Conflicts of Interest upon appointment to their position. If a COI develops during their tenure of service, s/her should disclose at the time the conflict develops.

SSO volunteer leadership should avoid any actual or perceived conflicts of interest when undertaking work on behalf of the Society.

- An individual shall not participate in discussions, vote on, influence, attempt to influence, make recommendations regarding, or otherwise participate in any transaction in which the individual or a member of their family has a conflict of interest.
- Anyone with a conflict of interest may not do business with or compete with SSO unless expressly authorized to do so by the Board of Directors. Such waiver will not be granted until full and complete disclosure and coordination with legal counsel has occurred.

- Neither an individual nor a member of their family shall accept gifts or other favors under circumstances that might reasonably lead to the inference that the gift or favor was intended to influence their decision-making in the performance of their duties to SSO.
- An individual shall not disclose or use SSO information for personal profit or advantage (directly or indirectly) or use or disclose information designated as confidential and/or strategic in advance of its authorized release or publication.

## Compliance and Enforcement

Volunteer leaders must disclose any potential Conflicts of Interest upon appointment to their position. If a COI develops during their tenure of service, they should disclose at the time the conflict develops.

Volunteer leaders are required to attest to the absence of any real or perceived Conflicts of Interest upon appointment or election to their position.

The Constitution and Bylaws Committee will review all Conflicts submitted to determine whether any action is necessary. If a Conflict requires resolution, the Board of Directors will suggest a course of action. Non-compliance with the suggested course of action will constitute a violation of SSO's Code of Conduct and will be resolved as outlined in the Code of Conduct.

Any possible violations of this policy by any member or persons identified within must be reported to the SSO in either of the following ways:

- Via email to [conduct@surgonc.org](mailto:conduct@surgonc.org)
